

Parallel miss-ratio curves: measured against predicted

— exact LRU (measured reuse distance)

- - Denning (measured reuse interval)

... CRI model (prediction)

schedule(static, auto) · block size 1 element(s) · fully-associative LRU · uniform interleaving, seed 1 · 18 configurations · mean MAE 0.0146 (CRI model), 0.0226 (end to end)
